Directors' Responsibilities and Approval

The directors are required in terms of the British Columbia Business Corporations Act to maintain adequate accounting records and are responsible for the content and integrity of the unaudited interim condensed consolidated financial statements and related financial information included in this report. It is their responsibility to ensure that the unaudited interim condensed consolidated financial statements fairly present the state of affairs of the Company as at the end of the financial period and the results of its operations and cash flows for the period then ended, in conformity with the International Financial Reporting Standards.

The unaudited interim condensed consolidated financial statements are prepared in accordance with the International Financial Reporting Standards and are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The directors acknowledge that they are ultimately responsible for the system of internal financial control established by the Company and place considerable importance on maintaining a strong control environment. To enable the directors to meet these responsibilities, the board of directors sets standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the Company and all employees are required to maintain the highest ethical standards in ensuring the Company's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the Company is on identifying, assessing, managing and monitoring all known forms of risk across the Company. While operating risk cannot be fully eliminated, the Company endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The directors are of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the unaudited interim condensed consolidated financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The independent reviewer is responsible for independently auditing and reporting on the Company's unaudited interim condensed consolidated financial statements. The unaudited interim condensed consolidated financial statements have been examined by the Company's independent reviewer.

The unaudited interim condensed consolidated financial statements set out on pages 3 to 22, which have been prepared on the going concern basis, were approved by the board of directors on August 27, 2021 and were signed on their behalf by:

Accounting Policies

1. Nature of business and significant accounting policies

Nature of Business

Osino Resources Corp. (the Company or the Group) was incorporated on June 5, 2012 in the province of British Columbia, Canada, under the British Columbia Business Corporations Act. The principal activity of the Company is the acquisition, exploration and development of gold mining properties in Namibia. The Company's head office is located at Suite 810, 789 West Pender Street, Vancouver, BC, V6C1H2, Canada.

The business of exploring for and mining of minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations.

On June 22, 2018, the Company, then Romulus Resources Ltd. ("Romulus"), completed an amalgamation with Osino Resources Corp. ("ORC"), a private company focused on the acquisition and development of gold properties in Namibia, and 1152372 B.C. Ltd. ("1152372"), a wholly-owned subsidiary of the Company (the "RTO Transaction"). Under the RTO Transaction, each of the issued and outstanding common shares in the capital of ORC were cancelled and exchanged for common shares of the Company. Concurrent with the amalgamation, ORC and 1152372 were amalgamated and the Company changed its name to "Osino Resources Corp."

During the first quarter of 2020, there was a global outbreak of COVID-19 (coronavirus), which has had a significant impact on businesses through the restrictions put in place by the Canadian and Namibian governments regarding travel, business operations and isolation/quarantine orders. At this time, it is unknown the extent of the impact the COVID-19 outbreak may have on the Company as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. These uncertainties arise from the inability to predict the ultimate geographic spread of the disease, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and quarantine/isolation measures that are currently, or may be put, in place by Canada and other countries to fight the virus.

While the extent of the impact is unknown, we anticipate this outbreak may cause reduced customer demand, supply chain disruptions and staff shortages, all of which may negatively impact the Company's business and financial condition. Due to the COVID-19 pandemic, all exploration operations including our site camps were demobilized and shutdown on March 27, 2020 in accordance with the "lockdown" procedures enacted in Namibia to combat the spread of the virus. This was done on the order of the President of the Republic of Namibia for certain regions of Namibia, which includes those in which Osino operates.

On April 30, 2020, the Government of Namibia announced that some restrictions would be lifted to allow exploration activities to resume, with certain limitations and adherence to COVID-19 related precautions. The Company recommenced field work on May 8, 2020.
